

Introducing Fixed Telecom Services

ABOUT ADVANTIX

Advantix Solutions Group specializes in fixed and wireless telecom management services. With years of experience and unmatched expertise, we are uniquely positioned to provide solutions that are unparalleled in the industry.

OUR TEAM

Our consultants and account management experts are trained to be fully knowledgeable about the complete range of telecom solutions in today's complicated global marketplace.

COMPETITIVE RATES

We work hard to ensure that you will realize significant net savings on an annual basis. With Advantix, your dollar buys expertise, commitment, and value, leaving you with more time to run your business and the confidence of knowing that you are benefiting from the most well-managed and cost-effective solution possible.

Is your organization one of the 85% whose telecom bills are not regularly audited? You may not realize that up to 12% of your telecom service charges could be incorrect, leading to significant overspending and wasted resources. Furthermore, the growing complexity of billing data means that this unnecessary spend often goes unnoticed because overall spend is not being appropriately monitored.

Advantix consultants are experts in their field, fully equipped to troubleshoot and optimize even the most complex telecom systems and identify opportunities for streamlining and savings in organizations of all sizes.

Advantix is dedicated not only to reducing your telecom spend, but to increasing visibility into key billing and support metrics, so that you can know what's really going on in your organization. We take on the responsibility and effort of simplifying your invoices and billing, streamlining your account management process with organized workflow rules.

With Advantix, you will always be confident that you know where your money is going. Advantix' custom reporting solutions are unmatched in the industry. We believe in empowering our clients to make the best decisions possible for the health of their companies, and work with them to provide visibility through a regularly updated series of clear, accurate reports.
