

## Mobility Management Services

Advantix takes care of your wireless management headache even as your needs grow and change.

With our Mobility Management Services, you can dramatically reduce the amount of time your organization spends administering its wireless phone accounts.

Let your organization focus on what it does best, and let us take care of your mobility management headache. As your needs grow and change, you can be confident that your organization has the best-managed, most cost effective mobile solutions possible.

» **Standard Edition:** Want to bring visibility to your telecom spend? With Standard Edition, you will receive advanced reporting and analysis along with monthly recommendations to help manage your mobility program effectively.

» **Professional Edition:** Be your own expert. Professional Edition includes many of the features offered with Standard, including enhanced reporting, dedicated core account team, ongoing rate plan and features savings. It's the edition used by the majority of our SMB clients.

» **Enterprise Edition:** Complete mobility telecom managed services for any size business. Enterprise Edition includes many of the features offered with Professional, including a dedicated support number and e-mail address, additional reporting, additional named callers, workflows and approvals. It's the edition used by the majority of our larger clients.

» **Unlimited Edition:** Fully customize and integrate telecom-managed solutions for your entire business. With Unlimited Edition, Advantix' Premier Support Team will customize and manage the complete process so you can focus on your core business.
