

Wireless Optimization Service

CHALLENGE

To reduce costs while providing better management of your company's telecommunications.

SOLUTION

Cost savings through optimization paired with Advantix' industry leading Mobility Management Program including helpdesk, procurement, customized reporting and ongoing monthly analysis.

ABOUT Advantix

Advantix Solutions Group specializes in mobility telecom management services. With a focus on the wireless sector, we are uniquely positioned to provide solutions and expertise unparalleled in the industry.

It's time to start putting money back into your budget!

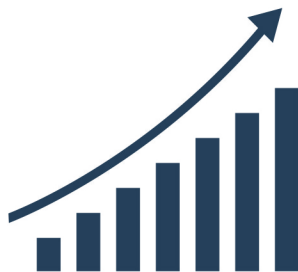

Our Wireless Optimization Services create savings without requiring our clients to change service providers or reduce usage. Advantix follows a three stage approach to finding and implementing savings for our clients:

Stage 1 » Analysis

Stage 2 » Optimization

Stage 3 » Implementation

» **Optimization Pro:** Get savings results! With Optimization Pro, you can expect significant savings created through our comprehensive analysis approach.

Optimization Pro Features

- » Electronic & Manual Data Load
